*"I have spoken at public professional conferences once or twice a year over the last 16 years. I had always believed that I was a very strong public speaker. After undertaking training with Gerry Kierans, there was a palpable improvement in audience feedback to these kinds of presentations. I received more enthusiastic claps following my presentation. More people made a point of telling me that they enjoyed my presentation. More people wanted to network with me, providing me with their business cards, sending me Linked-in invitations and writing follow-up letters. I highly recommend this training to anyone whose work requires them to make presentations".*

Niall Lenihan

*"By linking the content with current issues, the training not only spread motivation to the professional participants, but also increased their capability to manage and handle their daily working lives".*
